

Microchip Consent Form

HOMEAGAIN Pet Microchip Identification System and Recovery Service is the most complete nationwide system for recovering lost or stolen pets. It utilizes a tiny microchip, the size of a grain of rice, which is implanted under the skin between the animal's shoulder blades. Individual numbers are registered in the national database managed by the HomeAgain Pet Recovery Service. When a lost pet (cat, dog, etc) arrives at a participating animal shelter or veterinary clinic, a Scanner is used to identify the unique encoded number on the implanted microchip and the owner is identified and contacted immediately. This implanting procedure takes just seconds and is relatively painless. We recommend microchipping for companion pets of all species, breeds and age.

Microchip Identification

Prepare for disaster. Very few lost pets find their way home without permanent identification. Half of pets that end up in shelters arrive without collars. There are 10 million pets that get lost every year. One in every three pets WILL get lost in its lifetime and ONLY one in ten are found. With HomeAgain Microchip one pet is found every six minutes. We can implant a MICROCHIP while your pet is anesthetized for only \$81.69 (includes tax.)

This price includes:

- Implantation of the HomeAgain Microchip
 - Activation Fee
 - Annual Membership fee for first year
- Membership includes: Advanced Anti-Migration Microchip, Proactive Pet Recovery Network, Lost Pet Alerts, Personalized "Lost Pet" Posters, 24/7 Emergency Medical Care with access to the Animal Poison Control Center (ASPCA), Lost Pet Medical Insurance and Pet ID cards.

YES! I hereby authorize and direct Wyllow Pet Hospital to implant a HomeAgain Microchip in my pet.

NO.

My pet is already microchipped and registered with a database center (HomeAgain, 24 Pet Watch, Avid, etc).
